

## PRESS RELEASE JULY 2017

### New photo book presenting living art at its best

Living willow artist Heinrich Braun has released his new book presenting a decade of magnificent art made of living willow. 'Baugaarden Living Art - PHOTO BOOK' is a collection of beautiful photos and inspiring illustrations topped with personal comments by the artist himself. The photo book will be presented at this year's RHS flower show at Hampton Court Palace.

For more than ten years Heinrich Braun and his company Baugaarden Living Art has created plants, trees and sculptures made of living willow and decorated outdoor surroundings in Denmark and abroad. 'Baugaarden Living Art – PHOTO BOOK' presents a compilation of the beautiful living art setups he has done over the years, but this new release also contains a personal mission: 'I hope my book will make people realize how fascinating willow is and view art in a broader sense. When establishing living willow art in the garden you add a whole new dimension to the surroundings and the living art makes a perfect match to high-end designed garden furniture and art ware' says Heinrich Braun.

Baugaarden Living Art will exhibit at stand **PV/121** at Hampton Court Palace Flower Show 2017 and you can meet Heinrich Braun at the stand. 'Baugaarden Living Art – PHOTO BOOK' is in English and can be purchased at the stand (30£ incl. VAT).

Photos can be downloaded from the website [Baugaarden.com](http://Baugaarden.com). For more information, please contact Baugaarden Living Art at +45 40 307 306 or [info@baugaarden.dk](mailto:info@baugaarden.dk)
